FLIGHTED INCLINE CONVEYOR

This conveyor will transfer product from the infeed up into a hopper for the end users requirements.

An inclined belt conveyor fitted with flights and or retentive sides, this enables products from slipping back/off the conveyor.

This conveyor is commonly used for boxed product or for individual products i.e. roast potatoes, frozen chicken.

Key points

- Inclined at approximately 60 degrees
- Infeed chute with fastened removeable cover
- Outfeed chute with fastened removeable cover
- Full length covers with plastic handles
- Full length fastened removeable under covers
- Fitted with 4 off stainless steel hygienic feet
- SEW IP65 Motor gearbox fitted at the top of the conveyor
- Infeed and outfeed heights to suit your requirements
- All equipment will be manufactured from stainless steel and Fda Approved Plastics
- Conveyor motors will be SEW
- All leg frames will be fully welded
- CE documentation will be supplied
