# MULTI-LANE CONVEYOR

This conveying solution is usually used as a packing station in many food factories. Ideal for products such as ice cream pots, ready meals, sealed meat products and many more.

When accompanied with either a shelf or table, operators can package the incoming product from the upper belt, load the product into boxes and then feed them onto the lower belt where they can continue onwards to be sealed, labelled and palletised.

### Key points

- Height adjustable infeed section
- Collection tray for any un-picked product
- Fully welded cantilever leg frames
- FDA approved plastics and Stainless-Steel construction
- Safe for use with full wash down cleaning environments
- Options available for full controls, including emergency stops
- UKCA marked

### ✓ **HARD WEARING**

Solid reliable design and build provide essential low maintenance.

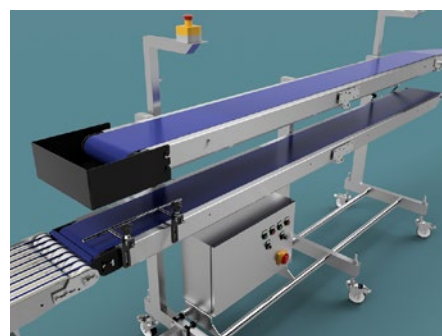

### ✓ **HARD WORKING**

Built for high volume daily usage to keep your production line moving.

### ✓ **HARD TO BEAT**

For value and build quality, the Multi-lane conveyor range is hard to beat.
