# ROTALINE

The Rotaline range of hard wearing rotary tables, designed for both wet and dry applications, sets the standard for hygiene and value within the food industry.

Quality engineered with a robust 20mm thick UHMWPE top, mounted onto a stainless steel frame, the units have adjustable feet for ease of movement and a unique friction drive – providing enhanced operator safety.

Rotaline tables – available in three standard diameters as well as bespoke sizes – are designed to withstand aggressive cleaning regimes. The tops are FDA approved and all contact surfaces are easily accessed.

Because the table tops rotary action is powered by sew motor there are no breaks in the top surface and it offers an unprecedented level of personal safety.

## FEATURES
